Looking like that...
These things are really getting on my nerves!

Mnn~
Ahh~
?
What do I have to do to get these sorta things...
Geez...

Don't steal Ichirouta from me.
He's mine.
...Well,
whatever.

I'm forced to stay home everyday to care for my mother, who has been sick for over 15 years

Oh, well if it isn't Haru!
ゴッ

...Impolite as always, aren't 'cha?

That damn Haru... Where did she go...!?
ガサッ
I saw her coming in this direction, but...

That was awful..!!!
What? You wanted to go in with us?
Even though I've said that I'd go in with you anytime, you know.
I wanted to go in too!
...Eh?

I smell something nice...

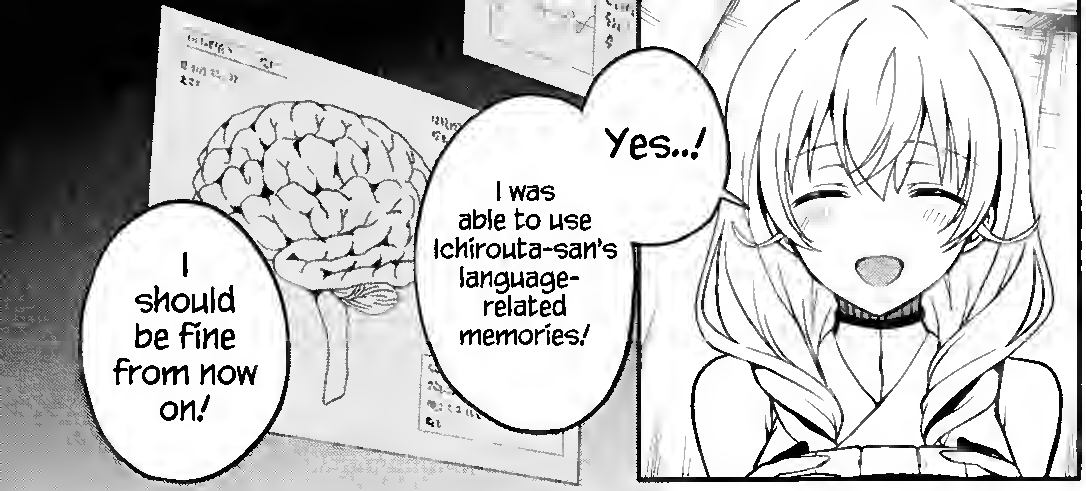
Ah-
Uh...

Ehh...
So goddesses really do have a nice scent, huh?
Urg...

Makie-san!
Makie-san..!
If you're free, let's go to the hot spring again!
You're totally obsessed with the hot springs and you're even casually talking with us now...
What a troublesome girl...



Yes..!
I was able to use Ichirouta-san's language-related memories!
I should be fine from now on!

...But,
I wonder, was that really okay?

Was what okay?

I ended up letting Ichiroutasan use my learning machine

to transmit knowledge about our stars to him...

Try showing me too!!
I-
I can't do that! It's against regulations!
...It's only because it was an emergency that Ichiroutasan used it...

because of that, we figured out the problems with that device, didn't we?
But,
Even *Ichirouta*, who seemed like he had *no idea* how to repair it,
has a rough idea of how to do it now, somehow.
...Yes.
Ichirouta-san is amazing...
He figured out the structure of this spaceship from a device meant only for basic education, and before I realized it he knew more about it than I did!

What kind of person is Ichirouta-san?
Ichirouta's parents died from a plague.
Because he was pitiful, I had him work at home, but...
He adapts so quick! He's good with his fingers and he's really handy!
He's become a man who worries about me whenever I'm not there.

Well...
He's my dream guy, I'd say.
You might even say that we're meant to be?
His curiosity's way overboard but he's almost perfect, wouldn't 'cha say?

No matter how many times I look at it, it's breathtaking...
Our world...
Our entire existence could become something like this...
I wonder how this space-ship runs?
I'm certain there are many other heavens besides that one as well...
I wonder, what kind of place is that heaven like?
I wonder what kind of smell its atmo-sphere gives off?

I want to know...!
I still have so many things
...Come to think of it,

What's wrong?
Well, I was just wondering what differences there were between a goddess' body and a human's body...
I wonder what the differences are between a "goddess" and a human being ?
If you don't mind, would you allow me to investigate next time?

!!!
Body...
Investigate
Wha-
What are you saying!?
"What", you say...
There aren't many machines that teach you about goddesses, are there?
I certainly need to know!

That's the part of you that's seriously dangerous...
I guess you really do need a spouse who will properly stop you from getting too close with others!
Specifically, me!
There are trespassers within the hazard zone.
W-
What!?

The next chapter will come out on April 27, in Japan.
